

*Combine your holidays at On the Rocks with the discovery of this unique island that offers you great opportunities of adventure, relaxation, romance and of course good food and wine!*

---

Below you can find few tips that On the Rocks Team proposes:

### *EXCURSIONS*

Explore the natural beauty of the island by making excursions with a catamaran within the caldera; the caldera basin has a 4-mile diameter and its history is still linked by scientists and archaeologists with the myth of Atlantis. You will have the opportunity to visit the volcano island, the hot springs and the volcanic island of Thirassia. Feel the sea breeze on board while enjoying the island of Santorini from a totally different point of view that will surely excite you.

### *CULTURE*

Santorini, despite the relaxing and summer atmosphere for which is well-known all over the world, has a great history linked to the explosion of the volcano and its consequences. Visit the Museum of Prehistoric Thera and the Archaeological Museum and plunge into the long and rich history of the island. The Museum of Prehistoric Thera hosts the important findings that

were brought into light with the excavations in Akrotiri. Then, visit the village of Akrotiri and travel in time by walking around the streets and squares of a pre-historic city of 30.000 inhabitants and admiring the elegant mansions and high finesse of the 17th century B.C.

### *GASTRONOMY*

After a long sunny day, there is nothing better than a tasty meal at a veranda overlooking the deep blue Aegean Sea while the sun sets. Discover the gastronomic treasures hidden in the traditional tavernas and restaurants of the island accompanied with local wines made with great prowess and expertise by local producers.

On the Rocks concierge team is ready to create with you your tailor made schedule for your trip to Santorini.
